

Internal Debeader 90-630mm

The Internal Debeader easily removes the Hot bead formed by the butt fusion process of pipe welding. With rod sections that can be joined together to reach weld beads of up to 21m.

FEATURES

- Designed for removing Hot formed beads on pipe size 90-630mm and SDR 7.4 - 41
- Wider head and throat capable of removing high-pressure standard formed beads
- 5 x debeading cutting heads
- Interchangeable support legs
- Centralising rod supports
- Bead catcher
- Heads and rod set can be sold separately to meet specific needs

Internal Debeader 90-630mm

Bead Removal Tools
